

Remarks

Reconsideration of the Examiner's Action dated November 12, 2004 is requested.

Status of the Claims

The Examiner's Action addressed all of the applicants' pending claims, namely Claims 1 to 75 and 77 to 147, and indicates that Claims 1 to 75, 77, 79, 81, and 87 to 147 are allowed. Claims 78 and 80 have been amended. No claims have been added. No claims have been cancelled. Accordingly, there are presented for the Examiner's consideration those claims which have not been allowed, namely, Claims 78, 80, and 82 to 86.

Discussion of the § 112 rejection in Paragraph 5. of the Action

Claims 78, 80, and 82 to 86 have been rejected under 35 U.S.C. 112, second paragraph. It is submitted respectfully that this rejection has been overcome in view of the above claim amendments. Claim 78 has been amended by inserting the term --or-- in the definition of Y to conform with the original Claim 78, col. 117, line 63, of involved U.S. Patent No. 5,364,866. Claim 80 has been amended by underlining the term "a" before the phrase "pharmaceutically acceptable acid addition" for grammatical reasons. By amending in this manner Claims 78 and 80, and by reference dependent Claims 82 to 86, it is believed that this rejection has been overcome, therefore, reconsideration by the Examiner and withdrawal of this rejection are therefore requested respectfully.

1. We believe we are the original joint inventors of the subject matter which is described and claimed in United States Patent No. 5,364,866, granted on November 15, 1994, and for which a reissue patent is sought on the invention entitled, "Heteroarylpiperidines, Pyrrolidines and Piperazines and Their Use as Antipsychotics and Analgetics."

6. The above-described error and all other errors corrected in this reissue application arose without any deceptive intent.
